HOW TO PLAY POWERBALL

Use black or blue ink. Do not use red ink.

Each entry form contains twelve (12) game panels. Each game panel contains an upper and a lower panel, each panel with a set of numbers between one (1) and forty-five (45). To mark a number, place a cross (X) in the box for each number selected.

PLAY OPTIONS

Excluding Power45

1. To play a Standard game, select five (5) numbers from the upper panel, then select one (1) number (**the Powerball**) from the lower panel. You may play up to twelve (12) Standard games in multiples of 2 up to 12 game panels.
2. To play a Systems entry just mark your choice on the entry form, then mark the same quantity of numbers in the upper panel e.g. Systems 7 – pick 7 numbers. Then pick one (1) **Powerball** from the lower panel. You may play from one (1) to twelve (12) games on one entry form.
3. Multiweek entries may be played for 2,5,10 or 25 consecutive weeks.

Including Power45

1. Mark Power45 on the entry form to pick all 45 numbers in the lower panel, ie. all possible 45 Powerballs. (NB, if numbers are marked in any lower panel, the entry form will be rejected).
2. For a Standard game using Power45, up to twelve (12) games may be played.
3. All Systems choices are available using Power45.
4. For a Multiweek entry using Power45, only one (1) game panel can be played for either Standard or Systems entries.
5. For more information about Powerball ask your NSW Lotteries Agent.

Please check carefully the numbers on your ticket
