

Lotto is the much loved and popular game that has been making people's dreams come true for over 30 years. Monday, Wednesday and Saturday Lotto is conducted by NSW Lotteries in NSW and ACT, and players can win big with a minimum \$6 million on offer every week over the three games - that's why Lotto makes more millionaires than any other game. And it's so easy to play!

## 1 What is Lotto?

Monday and Wednesday Lotto is offered throughout Australia. A guaranteed \$1 million Division 1 Prize is offered every Monday and Wednesday as well as larger guaranteed Division 1 prizes for special events. Monday and Wednesday Lotto costs 40c a game to play (minimum 4 games) plus Agent's commission – entering Lotto can cost as little as \$1.85!

In Monday and Wednesday Lotto, if there is no Division 1 winner, the Division 1 prize pool will jackpot to the next draw – for example, if there is no Division 1 winner on Monday night, the jackpot will be \$2 million on Wednesday night and so on\*.

Saturday Lotto is a national Lotto game, and offers a guaranteed \$4 million Division 1 prize every week! There are also special 'Saturday Superdraw' events held throughout the year which offer massive Division 1 prizes of up to \$30 million. If there is no Division 1 winner in Saturday Lotto, the Division 1 prize pool will jackpot to the next Saturday Lotto draw.

## 2 So how do you win with Lotto?

To win Division 1, you must select all 6 winning numbers drawn from 45 balls.

Prizes are awarded in 5 Divisions:

Division	What you need in a single game panel	Odds based on 18 games
1	All 6 winning numbers	452,503:1
2	5 winning numbers plus either of the 2 supplementary numbers	37,709:1
3	5 winning numbers	2,038:1
4	4 winning numbers	41:1
5	3 winning numbers plus either of the 2 supplementary numbers	17:1

## 3 How do you play Lotto?

You can play Monday, Wednesday and Saturday Lotto by choosing your own numbers or by asking for an Autopick. If you wish to use your own numbers by filling in an entry form, you can play up to 18 games. Alternatively, you can play up to 36 games if you ask your Agent for an Autopick entry, where the computer randomly selects the numbers for you.

### Standard Entry

To play a Standard entry, you choose 6 numbers per game panel. You must play a minimum of 4 games and it is available via entry form or Autopick options.

### Multiweek Entry

A Multiweek entry allows you to enter Monday, Wednesday and Saturday Lotto for 2, 5, 10 or 25 weeks in advance. This is a great option for players who plan to be absent or simply don't want to miss a draw! Simply mark the Multiweek box on your entry form or ask your agent for a Multiweek Autopick.

# HOW TO PLAY

## Systems Entry

A Systems entry increases your chances of winning by selecting more numbers in a game panel. You can choose from a Systems 7 (7 numbers) up to a Systems 18 (18 numbers). A Systems entry is equivalent to more Standard games e.g. a Systems 10 entry is equivalent to 210 Standard games. And as you are choosing more numbers, a Systems entry also allows you to win multiple prizes due to the larger amounts of combinations.

The table below shows the multiple prizes won with the most popular Systems entries – Systems 7 and Systems 8. For any inquiries about the multiple prizes won with other Systems entries please ask your Agent or visit [nswlotteries.com.au](http://nswlotteries.com.au)
